

elected above, and if a claimed use of the elected compound is free of the art, the Examiner will perform a broader search. Applicant appreciates the Examiner's clarification in this regard.

### In the Specification:

In addition to the above elections, please amend the application as follows:

At page 7, lines 19-22, insert the following amended replacement paragraph:

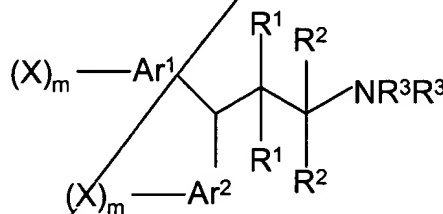

*B2* each  $R^3$  is independently selected from the group consisting of -H, alkyl, 2-hydroxyethyl, and alkylphenyl; preferably, each  $R^3$  is independently either -H or -CH<sub>3</sub>; more preferably one  $R^3$  is -H, and the other  $R^3$  is either -H or -CH<sub>3</sub>; and

### In the Claims:

In accordance with 37 CFR § 1.121, please substitute for original claims 3, 4, 7, 11, 14, 15, and 18, the following amended replacement versions of the same claims. Marked-up versions of the amended claims showing the amendments made are attached on a separate sheet.

Please amend the following claims:

*B2 sub C* 3. (Amended) A method of treating a <sup>patient</sup> ~~patient~~ for depression comprising the step of administering to said patient an effective amount of a compound having the chemical structure:

wherein each X is independently selected from the group consisting of -Br, -Cl, -F, -I, -CF<sub>3</sub>, alkyl, -OH, -OCF<sub>3</sub>, -O-alkyl, and -O-acyl;
